

Stage Plot & Channel List

Big Band

Otter Chaos! can field a big band with over 10 musicians: Rhubarb on the electric violin, Key on the piano/accordion, a horn section, a rhythm section, and a vocalist.

Channel List

1	Electric Drum Kit	DI
2	Hand Percussion	Mic
3	Bass	XLR
4	Electric Guitar	XLR
5	Electric Violin	XLR
6-7	Keyboard	DI
8-9	Accordion	DI & Mic
10-15	Horn section	Mics
16	Lead vocals	Mic
17	Talking mic	Mic

Logistics

- Setup/soundcheck takes a full hour. Teardown takes ~15 minutes.
- We'd like to request a dedicated time and room for a rehearsal, because we're a remote band that assembles only at conventions.
 - A rehearsal would be 1 - 1½ hours, closed to con attendees, and not need AV support. Any panel room with access to power would do.
- We have an electric drumkit, but will gladly play on a backlined drumset.

Stage Plot & Channel List

Smaller Band

Otter Chaos! can perform as a smaller sized band if playing on a smaller stage, or if there are less than 60 minutes for setup/soundcheck.

Channel List

1	Electric Drum Kit	DI
2	Bass	XLR
3	Electric Guitar	XLR
4	Electric Violin	XLR
5-6	Keyboard	DI
7-8	Horns	Mics
9	Lead vocals	Mic
10	Talking mic	Mic

Logistics

- We'd like to request a dedicated time and room for a rehearsal, because we're a remote band that assembles only at conventions.
- A rehearsal would be 1 - 1½ hours, closed to con attendees, and not need AV support. Any panel room with access to power would do.
- We have an electric drumkit, but will gladly play on a backline drumset.

Both of these options are provisional (for example, horn line specifics depend on band member availability). We send a finalized stage plot after being accepted to perform at a convention and an option is chosen.
